## INTRODUCTION

### Introduction & Purpose

The Canada Historical AFV Register is intended to provide a cataloging of all of the historical Armoured Fighting Vehicles (AFV), including tanks, APCs and self-propelled artillery, etc that are on preserved or otherwise displayed in museums or as monuments in Canada. As such the registry ranges from the World War I-era M1917 to the Leopard C2. However, the registry is not intended to include any modern AFVs that are still in service.

### Format

The Canada Historical AFV Register is organized by state and city or town as follows.

### PROVINCE

#### CITY OR TOWN

AFV Model	Man./User	status	Notes and/or location
-----------	-----------	--------	-----------------------

Man./User denotes the original manufacturer (country) and various users, using three letter country codes.

Status is denoted by one of the following codes.

ind = indoor display

out = outdoor display

std = stored (this can be either indoor or outdoor storage, but clearly not on display)

wre = wreck (typically vehicles on or recovered from a target range, or simply in very bad condition)

dep = departed

Additional information about a particular vehicle is often included in footnotes.

Often, if there are a large number of AFVs on display in a particular town or military post, sublistings are also provided, organized by location - museum, building, road, etc.

### Sources

The Canada Historical AFV Register is compiled from a number of sources. Firstly, the register is an expansion of Leslie Delsing's "Canada AFVs" registry file, with significant information also from Alf Adam's [Preserved AFVs in Canada](#) and Bruce Clark. Some of the other notable online sources include the former [Tanks for the Memories](#) geocaching site, [The Sherman Register](#) and other forums and message groups such as the [AFV News Discussion Board](#), and [G104](#) (the Sherman Register mailing list). Where possible, the origin of information on a particular vehicle is denoted in footnotes. A large number of contributors, many of which are credited throughout the registry, have provided invaluable information.

If you have any comments or corrections, please send them to Neil Baumgardner at [baumgar@hotmail.com](mailto:baumgar@hotmail.com), or simply post to the [AFV News Discussion Board](#).

<sup>60</sup> SN and info from Joe DeMarco (G104, 4/2006 and 1/2005). Formerly located at CFB Kingston and the [Military Heritage Museum](#) in Brantford.

<sup>61</sup> Information from Bruce Clark (1/2007).

<sup>62</sup> A "Ram Mk II" tank with the WD CT39816 is listed in [Canadian Museum of Civilization Corporation Catalog](#). However, according to "[Ram Mark I](#)" ([Ramtank.ca: A Registry of Canada's Tank](#)) this should be the WD number for a Ram I tank which was later converted to an ARV. The actual status of this second Ram tank in the Canadian War Museum collection is currently unconfirmed. If it does exist, it could be the only surviving Ram I tank.
