### M18 Hellcat – Headquarters of the Motorized Cavalry Group "Ayala", Fuere Tiuna, Caracas (Venezuela)

in June 1991 a deeply modernized M18A1 Hellcat tank destroyer was presented by a company originating from the then Yugoslavia. The prototype featured a new fire control system, a Luna-2 infrared projector, a closed tower for greater crew protection, four smoke launchers on each side, and a new 10-cylinder Mercedes Benz diesel engine. It kept the 76.2mm M1A1 cannon and the 12.7mm M2HB machine gun on the roof in a new mount. The project did not go beyond this prototype and these veterans tank destroyers who had been stored in reserve since their discharge in 1987-88, after 40 years of service in the Venezuelan Army, were definitively disincorporated. The modernized prototype was exhibited outdoors for several years at Fort Paramacay in Valencia. it is currently at the headquarters of the Motorized Cavalry Group "Ayala" in Fuere Tiuna. Caracas

I'm looking for photos of those vehicles:

M18 Hellcat – Military museum, Kačarevo (Serbia) – beter photos of two M18 Hellcats

M18 Hellcat – Armor Academy and military base, Camp HuKou, HuKou (Taiwan) – better photo

and any vehicles that I forgot...

This document is a compilation of photos published on the web. I would like to thank especially **Rafał Białęcki**, who deserved the most of the job on this document, and also the people who took these photos and put them on their websites, or sent them to me, and those who helped me doing these lists (particularly people of the AFV News Discussion Board). For any question, you can email me at [soldat\\_ryan@hotmail.com](mailto:soldat_ryan@hotmail.com)
