M7 Snow Tractor – Private collection, CO (USA)

This one is pretty well known in the hobby. It came from the Milwaukee Fire Department so has very low miles and is perhaps the most original unrestored one out there save for the paint—it still has the tool kit, spare parts kit, defroster and other rare items that these came with. Top is original as well (owner)

The white one will be going up for sale soon with a enough spares to restore it. Serial is M7-2 so the 2nd production unit built and pretty much all original down to the paint and even the Army markings on the hood (owner)
