MS-1 (T-18) m1930 – Victory Park at Poklonnaya Gora, Moscow (Russia)

This tank lost the running gear and engine in the thirties, as it was re-used as fixed artillery.

The turret was rearmed to 45-mm gun, this configuration was used for fortifications only (Yuri Pasholok)

I'm looking for photos of those tanks :

any Russian light tank tank that I forgot...

This document is a compilation of photos published on the web. I would like to thank especially **Rafał Białecki**, who deserved a great part of the job on this document, and also the people who took these photos and put them on their websites, or sent them to me, and those who helped me doing these lists (particularly people of the AFV News Discussion Board). For any question, you can email me at [soldat\\_ryan@hotmail.com](mailto:soldat_ryan@hotmail.com)
